TOOLKIT

Bargaining meetings

Bargaining meetings are happening right now! You can find your district's on the website **underfunded.ca/members.**

These meetings are essential for members to get information they need to feel confident in voting YES for our upcoming strike vote.

Here is a sample message to invite people to their local bargaining meeting, through a personal message or on a WhatsApp group. **People are much more likely to attend, if someone they know is inviting them personally to join:**

> Hey [contact name]!
>
> I'm going to our district's bargaining meeting on [date] at [time]. Want to join me? We'll learn the latest about bargaining and what to expect next. These meetings are super important to stay updated and offer us the chance to have our questions answered. Let's go together!
